Front-End Developer and UX/UI Designer with a B.S. in Graphic Information Technology from Arizona State University. Builds responsive, accessible, human centered digital experiences using HTML, CSS, JavaScript/jQuery, Figma, APIs, and GitHub. Combines design thinking with hands-on development, from information architecture and wireframes through polished prototypes and functional front-end builds.

SKILLS:

FRONT-END: Semantic HTML5, responsive CSS, JavaScript, jQuery, mobile-first design.

UX/UI: User-centered design, wireframes, prototyping, information architecture, heuristic evaluation.

ACCESSIBILITY: WCAG-minded design, semantic structure, usability, readable content hierarchy.

TOOLS: Figma, VS Code, Git, GitHub, GitHub Pages, Adobe Creative Cloud.

ADDITIONAL: API's, localStorage, debugging, browser developer tools.

DATABASE: SQL, NoSQL

WORK EXPERIENCE:

Computer Exploration Teacher

Tucson Unified School District.

August 2026 – Present

Valencia Middle School | Grades 6-8

- Teach computer science and digital literacy through CodeAI, Project Stem, Scratch, translating technical concepts into clear step-by-step instructions.
- Troubleshoot coding, account, and device issues for classes of 25-34 students while supporting learners with varied technical experience.
- Design structured digital lessons, learning targets, assessments, and classroom workflows that reinforce problem-solving, persistence, and responsible technology use.

PROJECTS:

Roadrunner Coffee Co.

Figma| UX/UI Design

UX Redesign Case Study- Portfolio Project

- Created a UX redesign prototype focused on improving usability, layout clarity, and overall user experience.
- Developed information architecture, wireframes, and a high-fidelity prototype using a user-centered design process.
- Live: Please view from portfolio.

Golden Retrievers Roast

HTML, CSS, JavaScript, jQuery

Responsive Coffee Brand Website- Personal Project

- Design and developed a responsive coffee brand site with navigation, featured products, brand story, favorites, and a contact experience.
- Implemented front-end interactivity and structure to improve readability, usability, and consistency.
- Live: <https://gcastor92.github.io/GoldenRetrieverCoffee/>

Gloria's Getaways

Semantic HTML, CSS

Responsive + Accessibility Project- Personal Project

- Design and developed a responsive coffee brand site with navigation, featured products, brand story, favorites, and a contact experience.
- Implemented front-end interactivity and structure to improve readability, usability, and consistency.
- Live: <https://gcastor92.github.io/Glorias-Getaways-/>

EDUCATION:

B.S Graphic Information Technology

Full-Stack Web Development concentration

Arizona State University

HONORS: Dean's List: 2022, 2025

CERTIFICATION:

- Arizona Emergency Teaching Certificate
- IVP Fingerprint Clearance Card
- CPR Certification
